INVESTING NOW TO SECURE TOMORROW'S TALENT SUCCESSION

Mining is a vital industry to a constantly changing and advancing world. Canada's future, as an industry leader, hinges on investing in talent development. The CMIEF scholarship enables students to dedicate themselves to their studies and seize the opportunities presented by the mining industry. By encouraging our students to pursue fulfilling careers in the mining industry, we aim to equip Canada to meet future talent needs and to contribute to global economic growth.

CMIEF was established to foster and support present-day students to evolve into the future leaders in the mining sector – ensuring innovation, growth and talent succession in our industry.

The Canadian Mineral Industry Education Foundation (CMIEF) provides **SCHOLARSHIPS** to undergraduate students enrolled in mining, geology, and metallurgical studies at any Canadian University.

As a student in a mining focused program, this scholarship served as a reminder I was pursuing an industry filled with generosity that recognizes education, hard work, and community involvement. This allowed me to pursue my studies with my full commitment to ensure learning would always come first.

– Jackson Miteff, Laurentian University

University of Saskatchewan, scholarship award 2024

Visit CMIEF.ca for more information about the benefits for each category

Established in 1964, CMIEF is a non-profit foundation dedicated to providing scholarships to undergraduate students specializing in mining, geology and metallurgy.

Financial support for the foundation is provided by individuals, corporations and foundations associated with the mining industry, as well as from those dedicated to helping students in pursuing their dreams. Our mission is to support and motivate university students who are keen in exploring the enriching career opportunities that the mining industry provides.

CMIEF has traditionally awarded renewable scholarships worth \$1,000 per academic term. Recognizing rising education costs, the scholarships were recently increased to \$1,500. CMIEF intends to further raise the scholarship value in the future to better align with the current reality of educational expenses.

University of Alberta, scholarship recipients April 2024
